

Retrofit Equipment

We can retrofit any existing box, square or round. Eliminate the cross-threaded and broken off screw studs that exist with our **CAM-LOKS**, to make a water-tight seal.

- There is no need to break concrete.
- Low maintenance cost
- No down time
- Water-tight

Cam-lok inner ring
Supplied with steel
ring retrofits (only)

Retrofits are available with, Snap-tight covers, Gravity access covers and 7" or 12" observation ports.

Retrofits Include:

1. Manhole cover or E/Z lift cover (with or without access covers)
2. Spill containments (if needed)
3. Cam-lok inner ring (only for rolled steel ring)
